**“National Periodic Table Day”**  
7<sup>th</sup> February, 2024  
**Report**

Department of Chemistry celebrated a National Periodic Table Day on 7<sup>th</sup> February, 2024. This day is dedicated to one of the most foundational tools in the field of Chemistry-the Periodic Table. It's a day to appreciate the brilliant minds behind its creation and the way it has shaped our understanding of the chemical elements that make up the universe.

The program was inaugurated by Dr. S. T. Mahanwar, Head, Department of Chemistry. Welcome address for the program was given by Dr. A. R. Mali, Associate Professor, Department of Chemistry, YCIS. Satara.

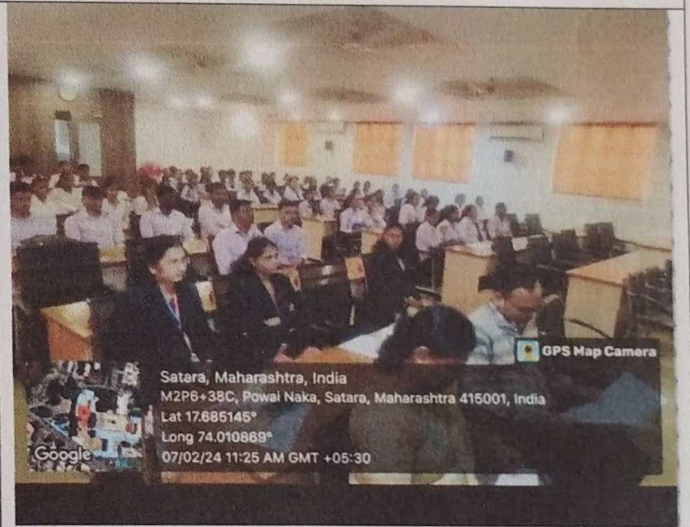

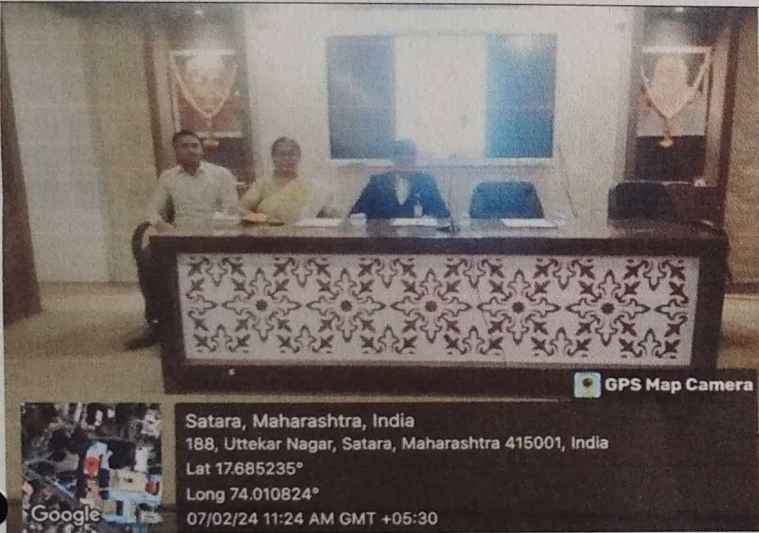

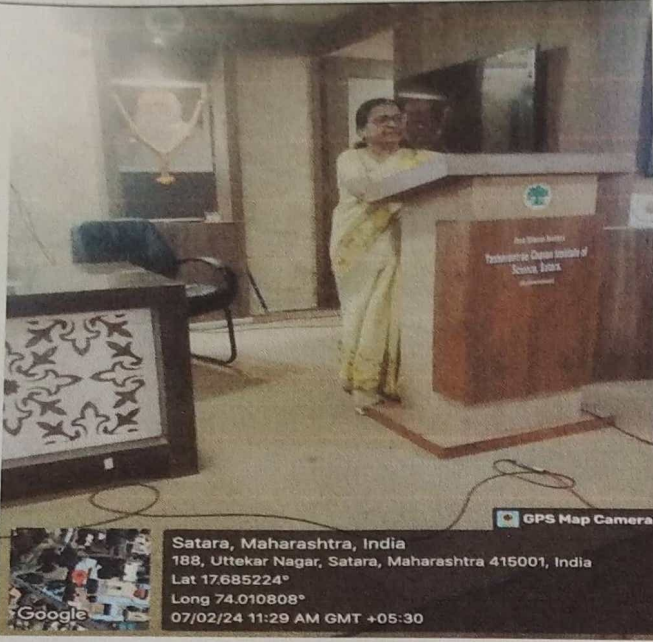

To learn the fascinating history of periodic table, department has organized various funny games such as **Scrambling words, Match Word, Cross Word, Word Search from Periodic Table, Poster Making, Arranging the Periodic Table through Chits** etc. The main attraction of the program was all the funny games arranged were based on **Innovative Teaching Pedagogy**. The students were very curious about the brain storming activities planned for them. The whole program was conducted by M. Sc. II students.

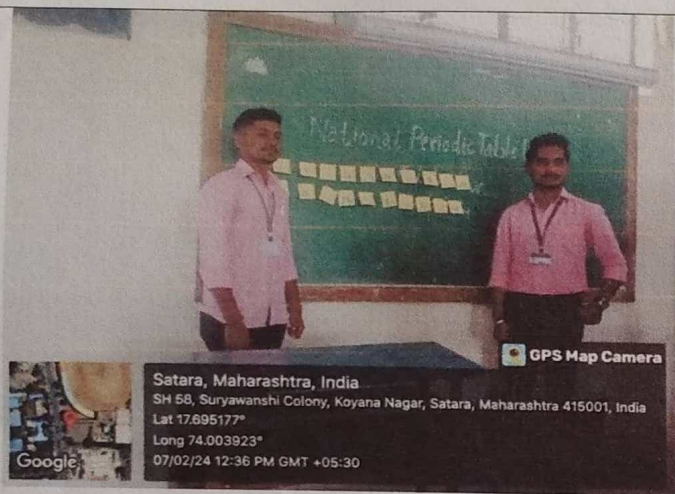

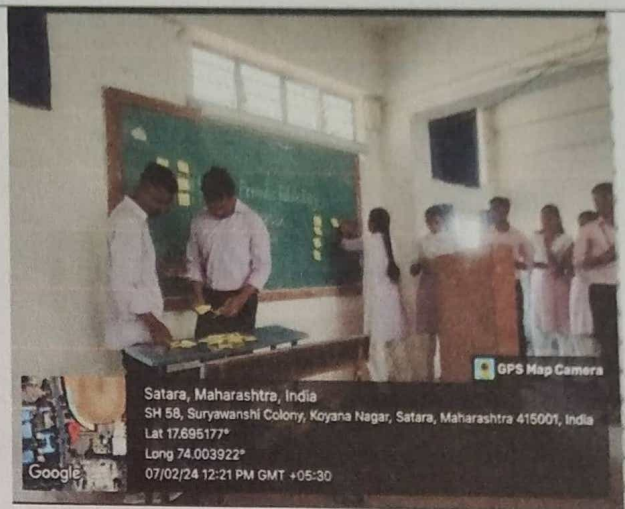

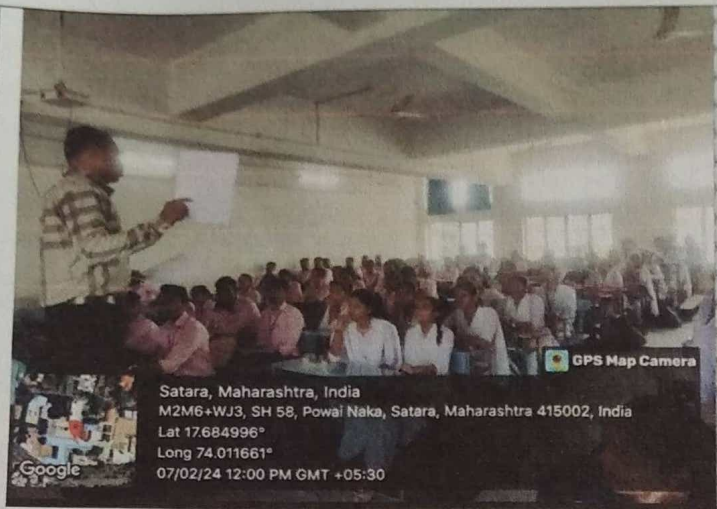

**Outcome:**

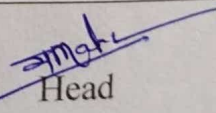

1. Active in-class learning provided students with informal opportunities for feedback on how well they understood the concept.
2. Active learning provided students greater involvement in their learning and also able to build team work culture in them.

Dr. V. B. Ghanwat proposed the vote of thanks. The whole session was conducted under the able guidance of Dr. Mrs. S. T. Mahanwar, Head, Department of Chemistry. For this enthusiastic event total 75 UG and 38 PG students were actively involved.
