

Global Research Network Seoul 2019

The Global Research Network Seoul 2019 was held at Dragon City Hotel in Seoul on 4th December 2019. It was hosted by The Ministry of Science & ICT of Korea (MSIT) and operated by the National Research Foundation of Korea (NRF). The purpose of this global event was to initiate & strengthen the networking activities between the former and current Visiting Scientists (Brain-Pool /Korea Research Foundation Fellows) in South Korea and to exchange ideas on the frontline innovation challenges. Over 350 researchers across the globe as well as VIPs from US, Canada & German Embassies participated in this conference. Dr. Yong Hong Taek, Deputy Minister of Science & ICT, South Korea, and Dr. (Ms) Roe Jung-Hye, President of NRF graced the grand inaugural function. Dr. Dinesh Amalnerkar, Former Brain-pool Scientist at Hanyang University, was specially invited by NRF to participate in this meet. On the request of NRF, he has given a short speech in the inaugural session and also delivered full-fledged seminar entitled **“Development of Green Nanostructured Materials for Innovative Applications in Electronic Devices & Antimicrobial Activity”** in the technical session held in the afternoon.
