Online Education

1. Does all programs/courses were completed on time.	Yes		
2. Measures taken to complete the syllabus of courses and programs.	<p>Yashavantrao Chavan Institute of Science, Satara geared itself in 2020-21 to meet the Covid-induced hurdles in the teaching-learning process. To start with, the institute set up two audio- video recording studios with all the necessary infrastructure where the faculty could record their lectures. Each department was provided with an independent microphone, teaching slate, interactive board and web-camera to enable online lectures. The lectures were put up on you-tube platform so that the students facing connectivity problems could indulge in self- paced learning. Meanwhile a survey was undertaken by the class teachers to understand the connectivity situation within the student community of the institute. The institute then invested in G-Suite software and zoom platform. Both these platforms enabled virtual classrooms, meets and exams with minimum discomfort. With the growing need of the online mode of teaching, broadband connections ranging from 40 Mbps to 100 Mbps were subscribed. This helped the faculty to conduct online classrooms as per the scheduled time table. We were able to complete the theory on time. Our institute is a member of N- List to enable access of online books and reading material. Apart from this, the library also set up an e- library portal on the website from where the students could access e- books provided by faculty for their reference. The faculty on their end also saw to it that the reference books and reading material were provided to the students regularly. Ours being an autonomous college, we could complete the internal as well as end semester exams before the other colleges under Shivaji University. Being a single faculty science college, practicals are an integral part of the curriculum. So the institute applied to V-labs and attained the status of Nodal Centre for virtual labs through which a number of practicals could be conducted for the students on the virtual platform. We also scheduled a time table in which the students of Masters and final year UG programmes could come to the institute for the practicals and their projects while following the covid protocols. As a result we were able to cover all the practicals. Even the practical exams were conducted on time. Apart from the syllabus of the regular curriculum, the teaching and evaluation of the Diploma and Skill courses were also completed on time. The online platform made it easy for the resource persons of these programs to connect with the students and impart the course related knowledge. We being the local chapter of NPTEL, 89 students from the Masters program enrolled for the NPTEL-SWAYAM courses of which 40 students were able to successfully complete the courses. Ours students were also able to complete their research and industry internships. The online webinars and conferences provided a platform for the Masters students to present their research work and interact with the scientific community and earn the required credits. To sum up, the institute as a whole pitched in and enabled the successful completion of the academic year for all stakeholders.</p>		
3. The period of delay in completion of syllabus (in months).	0		
4. The period of delay in conducting exams (in months).	0		
Portal Name	No. of students offered online courses which have credit transferred to transcript	Total no. of online courses which have credit transferred to the transcript	Total no. of credits transferred to transcript
