

# **REPORT OF DEPARTMENTAL ACTIVITY**

**Title of the Activity:** First Aid Activity

**Organized by:** Department of Military Science, YCIS, Satara

**Day & Date:** Friday, 12-9-2025

**Venue:** S-0-3 (Digital Classroom)

**Participants:** B.Sc. I, II, III Military Science Students.

**Resource Persons:** Sub. Deepak Shinde (Retd. Indian Army)

The NCC Unit, in collaboration with the Department of Military Science, organized a **Departmental First Aid Activity** on the above-mentioned date with the aim of creating awareness about basic first aid and emergency response among students.

The program commenced with a brief introduction emphasizing the significance of first aid knowledge in handling unexpected medical emergencies within the department and campus. The resource person explained the fundamental principles of first aid, including assessing the situation, ensuring safety, and providing immediate care until medical assistance arrives.

The session covered various first aid techniques such as management of **bleeding, burns, fractures, sprains, fainting, heat exhaustion, and snake bites**. A practical demonstration was conducted on proper bandaging methods, use of splints, and basic life-saving techniques including **CPR**. Participants were encouraged to actively take part in hands-on practice under supervision.

The activity was interactive and informative, with students showing keen interest and clarifying their doubts during the session. The training enhanced awareness, confidence, and readiness among participants to act responsibly during emergency situations.

The Departmental First Aid Activity concluded with a vote of thanks. The program was successful in fulfilling its objective of imparting essential first aid skills and promoting a culture of safety and preparedness within the department.
